

Internet Advancement

Important to remember about Internet Advancement- Only one processor is allowed to access Internet Advancement at a time. Please do not share Unit ID and passwords

How do I access Internet Advancement?

Internet Advancement can be access through you're My.Scouting account.

How do I get my Unit ID number?

You must complete the INTERNET PROCESSORS REQUEST FORM. Once received by the Council office, you will be emailed the unit ID number and instructions.

I can't get into Internet Advancement?

There are several reason for this, either you have been removed, the system is down for updates and/or repairs or it's recharter time (during recharter time, please feel free to download a paper advancement form and complete it) But remember it's up to you make sure all awards and ranks are entered.

Also during Recharter time if your unit is not posted by March 1, you will not be able to log into Internet Advancement until after it has been posted.

I made a mistake entering a youth's ranks and/or badges. How do I delete it?

You will need to contact the Council either by phone or email to fix any mistakes. (I prefer email, please include, Unit #, boys name, which badge(s) are wrong or dates, and the correct information). Judi.Velasquez@scouting.org
